KOLTSOVO/2018

THE 5th COMPLEX OF BIOTECH & BIOPHARMA EVENTS

Forum. Exposition. B2B brokerage. Scientific conference.

OCTOBER, 2018

SCIENCE TOWN KOLTSOVO OF NOVOSIBIRSK REGION, RUSSIA

OPENBIO ORGANIZING COMMITTEE

Innovation center Koltsovo brings together business and science: international communications, technology transfer, partners search (a regional contact point of EEN).

OPENBIO CO-ORGANIZERS

Research center of Virology and Biotechnology VECTOR - one of the biggest centers and the second Collaborating Centre of WHO for diagnosis of orthopoxvirus infections and museum of strains and DNA of smallpox virus in the World.

Koltsovo - the first science town in Russia with biotechnological specialization; one of the key growth points of regional and country competitiveness in the fields of biopharmacology, diagnostics, biotechnology in cosmetics, nutrition, agro and veterinary science.

Biotechnopark Koltsovo - an innovation platform that provides comfort conditions for effective operation of businesses in biotechnology.

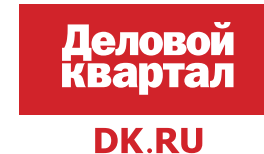

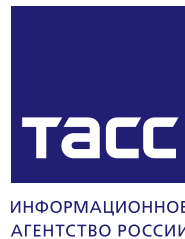

Association of Novosibirsk region in the field of biopharmaceutical technologies "BIOPHARM" includes more than 50 members (45 business companies, 7 research institutions and universities, innovation infrastructure).

NSU - National Research University, that has close ties with Institutions of Russian Academy of Sciences and business.

OPENBIO INFORMATION SUPPORT

OpenBio communication platform has wide media coverage. It is discussed on federal TV channels and in printed media. Information about OpenBio participants is disseminated in specialized editions widespread in business communities and scientific institutions.

**OpenBio communication platform
is a complex of events dedicated to the
commercialization of ideas and
business development in life sciences:**

FORUM

**FOR BUSINESS,
SCIENCE AND
INFRASTRUCTURE**

EXPOSITION

**OF BIOTECH AND
BIOPHARMA
ENTERPRISES**

B2B

**BROKERAGE
EVENT**

SCIENTIFIC CONFERENCE

**FOR MOLECULAR BIOLOGISTS,
VIROLOGISTS AND
BIOTECHNOLOGISTS**

“ OpenBio communication platform is dedicated to open dialogues on cooperation and development of science, business and infrastructure. ”

THE CONCEPT OF OPENBIO

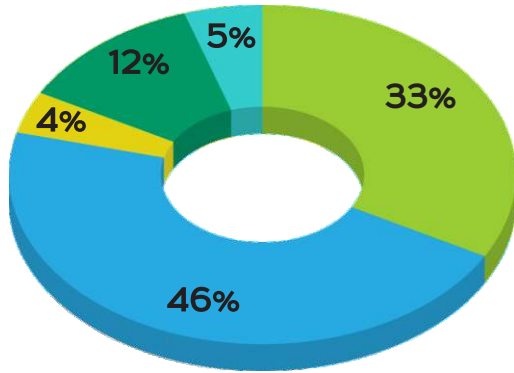

Target audience:

- innovation companies, specialized in biopharmacology, diagnostics, biotechnology in cosmetics, nutrition, agro and veterinary science;
- biotechnology, molecular biology and virology scientists;
- researchers and experts in innovation business, technology transfer, commercialization, clustering and science support.

Mission – commercialization of ideas and business development in biotechnology.

Tasks:

- Forming of business projects;
- Discussion of joint participation in European research and innovation programs;
- Exchange of experience and sectorial best practices;
- Presentation of foreign and local companies and opportunities for joint ventures.

Participants:

- Scientists (including head of institutes and researches)
- Business
- Life science students of universities and colleges
- Innovation infrastructure and development institutions
- Government officials

Geography of participants

OPENBIO IN NUMBERS

More than 700 participants
from 19 regions and 10 countries

700

More than 80 experts, including

- Russian Venture Company, Skolkovo
- Enterprise associations
- Technological infrastructure
- Foreign Embassies and Consulates

80

Simultaneous participation of
70 PHDs, 16 Doctors of Science,
2 Academicians of RAS

70/18

FORUM

Forum part is for business, science, innovative infrastructure and authorities.

Trends and
acute questions

Further development
of biotechnological
industry

Ideas and
expert opinions

FORUM

A number of expert events, reports and workshops are open for professionals in biopharmacology, diagnostics, biotechnology, in cosmetics, nutrition, agro and veterinary science.

EXPOSITION OF COMPANIES

Dozens of companies and research organizations working in life sciences will present their products and technologies.

NON-FORMAL BIOTECH: KIDS FORUM, ART SCIENCE, ESTHETICS OF MICROWORLD

Different non-formal events such as science-show, exposition of microphotos, 3D models of biological objects, the children scientific conference.

SCIENCE CONFERENCE

Young scientists - virologists, molecular biologists, biotechnologies - will present their results of research and technological advances. The best presenters are to be awarded with prizes.

ANNUAL **OPENBIO** COMMUNICATION PLATFORM WILL BEGIN OCTOBER, 2018 IN KOLTSOVO

We are delighted to invite you to the OpenBio communication platform – complex of events in the sphere of life sciences:

Forum for business, science and infrastructure,

Exposition of biotech and biopharma enterprises,

B2B – meetings,

Scientific conference for molecular biologists, virologists and biotechnologists.

OpenBio offers you a range of options:

- to be an expert in the framework of round tables
- to present your company / technological center / university in the framework of Forum and round tables
- to participate in Exposition (present your products, services, equipment)
- to make a scientific report
- to be a partner

We welcome you at OpenBio-2018!
