PRIMORSKY PLANT «EUROPLAST»

BRIEF INFO about Our Plant:

- Date of founding – 21.03.2001
- Average quantity of stuff – 100 active workers
- CEO – Belokurov Evgeniy
- Resident of Territory of priority development since 2013.

MAXIMUM PRODUCTION CAPACITY:

Total production output – 20'000 mt/per year

- PET - 19'150 mt/per year
- Linear polyethylene – 850 mt/per year

TYPES OF MANUFACTURED PRODUCTS:

- PET PREFORMS
- CAPS
- BOTTLES/HANDLES

WATCHWORD:

**Extend limits. Extend opportunities.
Aspire to innovative technologies and top-notch quality!**

Our main GOAL:

**Production and supply of quality and safe product,
which fully satisfy customer requirements and needs.**

TERRITORIES OF PRIORITY DEVELOPMENT

Russia has passed a law creating several special areas with favorable investment climates and conditions in a number of regions in the country's Far East, the Ministry of Far East Development has announced in a statement. The Law on Territories of Priority Development (TPD) is intended to help areas of Russia's underdeveloped Far East make an economic leap forward.

A special legal regime was established in the TPDs for entrepreneurs (tax benefits and simplified administrative procedures), which should create good conditions for attracting investment to the Russian economy as well as speed up its development and ensure a comfortable life for the population.

All of the infrastructure in the TPDs is financed through not only federal but also regional and local budgets as well as non-budgetary sources.

As resident of TPD we are gain special benefits which directly linked to potential international cooperation!

Advantages of TPD in terms of international trade:

- 1) **Using the free customs territory**
- 2) **Tax benefits and insurance premiums**
- 3) **A special procedure for the use of land**
- 4) **Government investment**
- 5) **Ability to attract preferential and expedited basis of foreign qualified staff**

PET Preform assortment

PET Preform assortment

Cap assortment

Monochrome and two-color caps

STANDARDS:

- PCO 1881
- PCO/BPF
- BERICAP
- CAIBA

The equipment of Primorsky plant EUROPLAST allows to produce monochrome and two-color printing on caps.

One-component caps

The exact selection of your color

Type 1

Type 2

Cap PCO 1881 and 1810

The new standard of neck for PET preform.

Transition to standard **PCO 1881** for 28mm reduces the weight of the preform and cap and provides significant savings of raw materials used without any loss of quality.

PCO 1881 standard was developed and approved by the International Organization of technologies for the production of beverages (ISBT), which includes major international companies such as Coca-Cola, PepsiCo, Kraft Foods, Sidel and many others. Also our Plant have an opportunity to provide **Standard 1810** preforms and caps according to any specification client may have!

Cap «Caiba» 45 mm

Primorsky plant EUROPLAST produces cap Caiba Ø 45 mm for PET preform 94g.
Customers get a plastic handle with a cap as a set.

PLANT AND MACHINERY

Production is conducted using high-precision equipment of world **top-quality** producers:

- **Netstal** (Switzerland) – production of PET-preforms
- **Husky** (Canada) – production of PET-preforms
- **Demag** (Germany) – production of caps
- **Sacmi** (Italy) – production of caps

Production output – 20'000 mt/per year

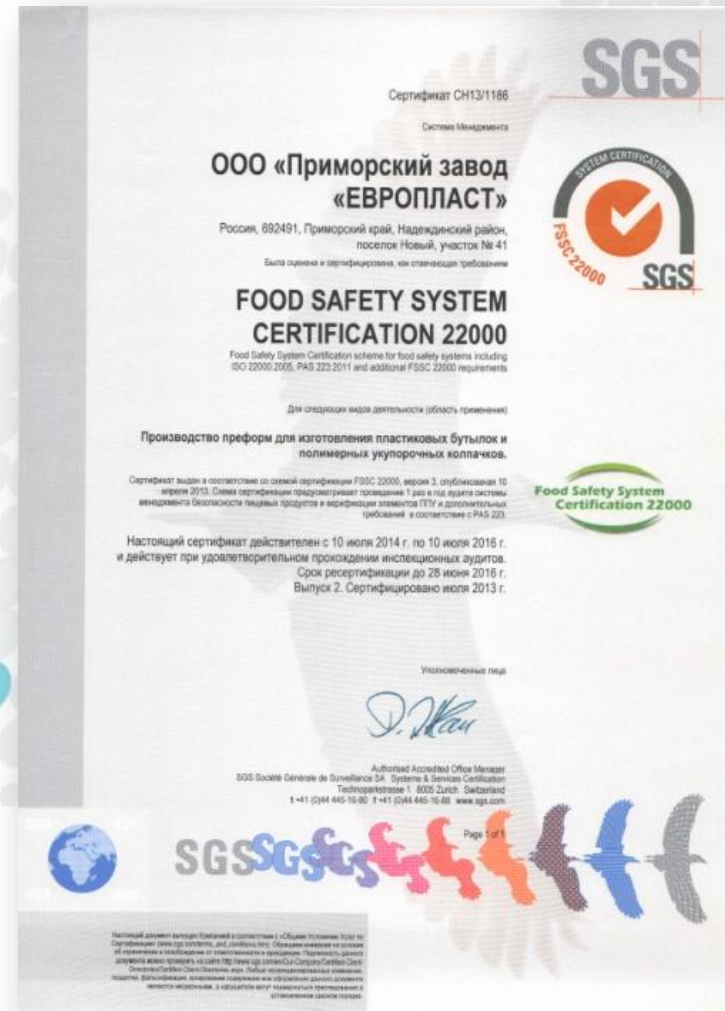

Warehouse

Warehouse of «Primorsky plant EUROPLAST» fulfills all volume demands, storage and safety requirements for proper storing and circulation of products.

Certificate of conformity of the QMS requirements of ISO 9001: 2008 FOOD SAFETY SYSTEM CERTIFICATION 22000

Advantages and benefits

Currently, as powerful production facility, we are looking for ways to extend our presence across Russian borders. Such developed markets as markets of Japan, Korea Republic and China our main priority in affirmed Strategy of our Plant.

➤ **Logistical accessibility**

*Closeness of our countries helps us to build long and firm partnership through **fast supplies and in-time feedback**.*

➤ **Revenue increasing.**

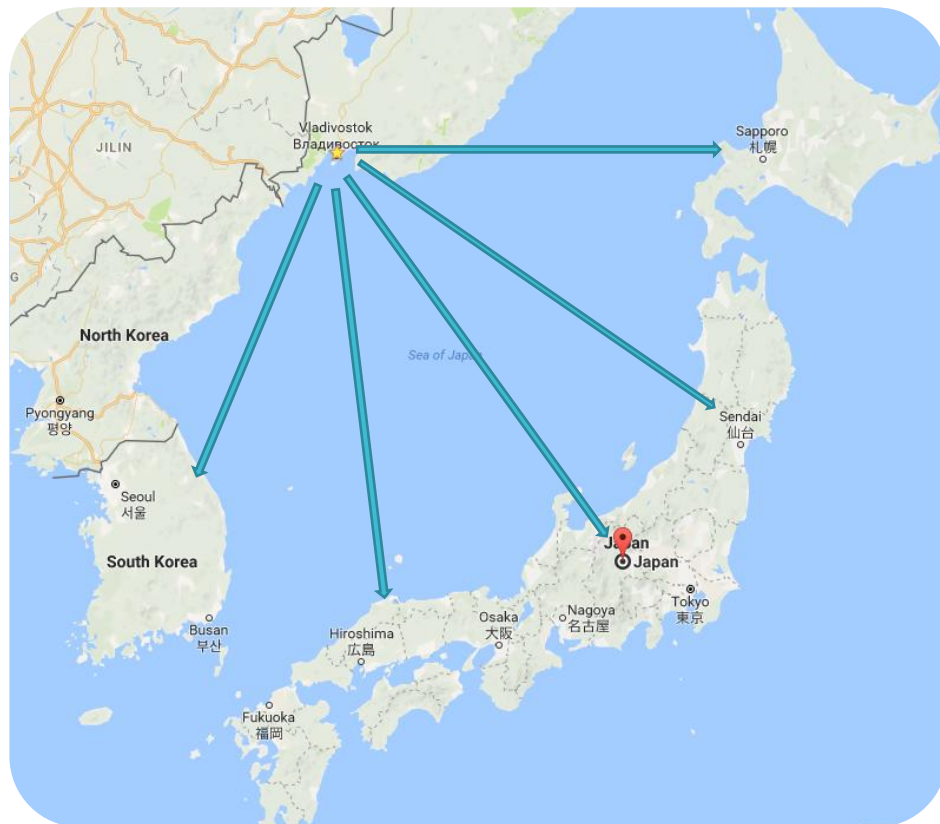

As TPD resident (see slide #4) we are able to provide your Company with beneficial price for required products.

➤ **Advantage on inner market.**

Meanwhile your business rivals will be limited by borders of in-country production, your supplies channels will be far more flexible by virtue of our co-op.

➤ **Brand quality and wide assortment**

Our products through many years recommended itself as reliable goods, accredited by transnational companies.

**Please, contact us any convenient way. We will be glad to answer on your requests.
