Description

- **Name:** Construction of a grain and container handling complex in Slavyanka Bay
- **Organizer:** Berkut Management Company LLC
- **Time frame:** 2014—2020
- **Cost:** USD 80 million
- **Projekt:** Construction of a grain and container handling complex in Slavyanka Bay
- www.mmpt.ru

Description

The purpose of the project: to lead Russia to a new level of the grain trade on the major international markets, to establish a foreign trade between Russia and the Asia-Pacific region through the Far East and thus a great potential of the ports of the Far East realize. The developed

project it's a system which is intended for the reception of grain cargoes from rail transport, for short-term storage in a warehouse, and if it's necessary — for drying and shipping by sea. Mechanization on the terminal will be implemented using pipelined equipment and stationary rotary ship-loaders of conveyor type. On the territory of the complex will be located the silo-warehouse which is the optimal storage for grain cultures.

Description

- **Name:** Construction of a coal handling terminal in Slavyanka
- **Organizer:** Berkut Management Company LLC
- **Time frame:** 2013—2015
- **Cost:** USD 164 million

- www.mmpt.ru

Description

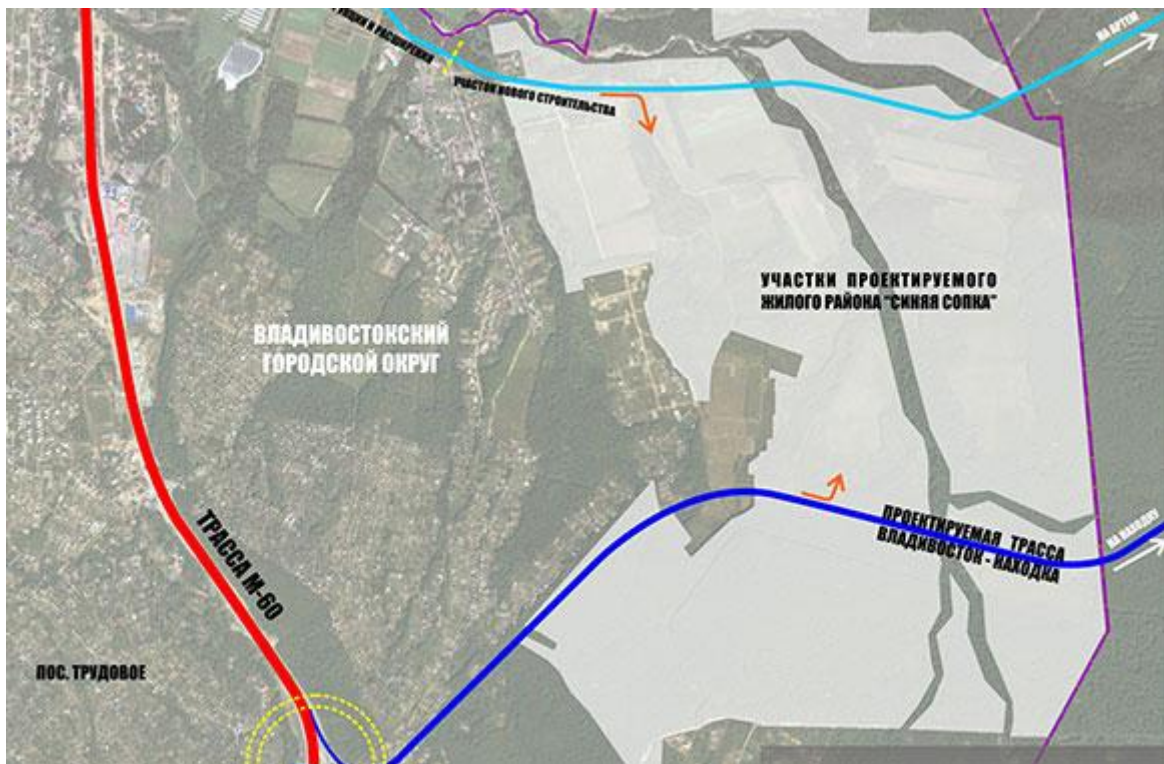

The purpose of the project: to build in two phases the port terminal for bulk cargo, with productive capacity from 2.5 (on the first stage) to 8.5 million tonnes (on the second stage). The main difference of this one terminal is that its services targeted at all coal exporters, and that it will not monopolized by large mining companies of Russia.
