Webinar

## Investments in Natural Resources in Russia, Regulatory Issues

May 19, 2026

Dear Ladies and Gentlemen,

ALRUD Law Firm is honored to invite you to our webinar:

### ***Investments in Natural Resources in Russia, Regulatory Issues***

Despite the times of geopolitical instability and challenges, Russian sector of natural resources does not lose its importance and attractiveness for foreign investors. In the meantime, state control over the sector has been tightened, so now foreign investors are facing even more complex set of rules governing subsoil use, strategic investments and compliance. This webinar will provide an overview of key legal topics and issues that foreign investors should consider.

During the webinar, ALRUD's specialists will elaborate on the following topics:

- general background on subsoil use licensing in Russia, key license conditions and main obligations of subsoil users;
- options for foreign investments into the natural resources sector, applicable requirements and restrictions;
- supporting permits and licenses required for mining activities, rights to land plots;
- taxation and mandatory payments made by subsoil users;
- export of natural resources from Russia.

Our webinar will be useful to a wide range of professionals (legal advisors, heads of legal departments and in-house lawyers). We also invite you to ask your questions in advance and during the webinar.
