- Crypto professionals
- Best Blockchain projects

WORLD BLOCKCHAIN AND CRYPTOCURRENCY SUMMIT

WBC SUMMIT
WORLD BLOCKCHAIN AND CRYPTOCURRENCY

"CREATING A
DECENTRALIZED DIGITAL
FUTURE FOR A WORLD
WITHOUT BARRIERS"

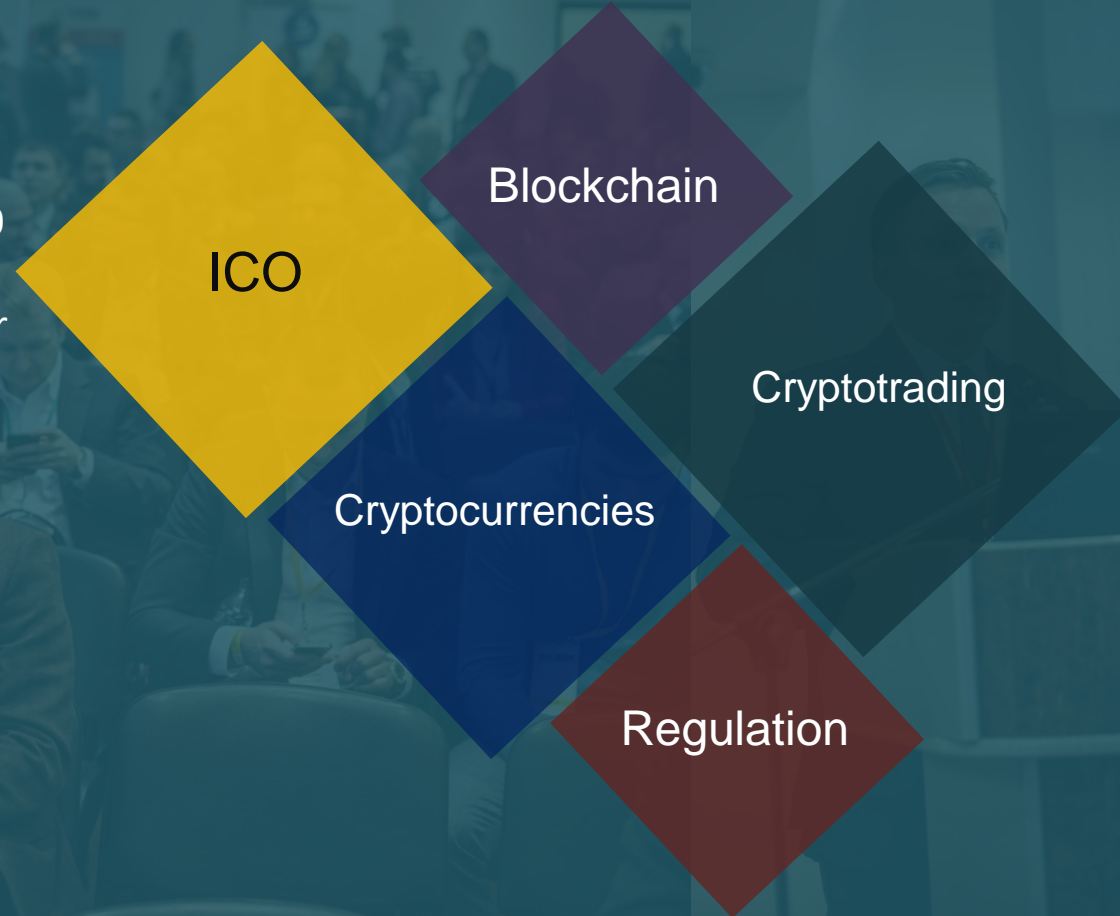

Welcome to the official website of the #WBCSUMMIT Moscow that is to be held on 19 – 20th May 2018 by International Decentralized Association of Cryptocurrency and Blockchain (IDACB)

#WBCSummit gathers the most engaged members of the global blockchain community, the representatives of crypto associations, authorities, foundations, investment companies, banks and IDACB's partners. #WBCSummit is set to create and maintain a platform for the exchange of knowledge, experience and success in the field of the blockchain technology and its regulation.

After the First #WBCSUMMIT in Moscow (January 27, 2018) we got a lot of requests to hold further discussion on issues concerning use of new technologies as well as their potential. Taking into account the speed of progress on the agenda, we decided to hold another #WBCSummit in May. Its topics are set to reflect the major areas of blockchain and cryptocurrencies as well as trends existing in these spheres.

International Decentralized Association of Cryptocurrency and Blockchain (IDACB) is a non-profit entity operating under principles of decentralization. Membership in Association is granted to the national associations of participating countries and by online registration for all blockchain society. Professional community members can apply for individual membership in Association.

Initial WBC Summit was held in Moscow on the 27th of January 2018. (идет видео на экране (57 sec.)). It gathered over 700 world-class professionals as well as 30 international organizations responsible for blockchain regulation with the number of represented countries having exceeded 30. The Summit was aimed at shaping global digital agenda as well as driving positive changes in the sphere of Blockchain and cryptocurrency. Thus, its work was divided in five sessions:

Over 50
speakers

700
Professionals
from over 30
countries

30
international
organizations

300
articles and
references in
international
publications

Covered by
over 150
media

Sessions:
ICO,
Blockchain,
Cryptocurrencies,
Cryptotrading
Regulation
