**ALSTOM**  
Alstom Power

Our competitive edges are as follows:

- We handle customs formalities at the stations with the best location in the territory of the Russian Federation
- We arrange for the same-day transfer of the goods
- We provide legal support
- We offer instant solutions with due regard for the market

LEGA-C goes with the times and adhere to the principle of efficiency , usage of modern legal base and law observance while cooperating with partners. These factors contribute into the value of our company, proving the following:

«...positive customs history becomes a capital of the company, which helps to increase marketability...»

head of Federal Customs Service  
Mr. Andrey Beliyandinov

Mr. Beliyandinov emphasizes that size of the company does not matter. The head of Federal Customs Service says, that companies, conducting foreign economic operations in good faith may expect streamlining of customs procedures.

All above-stated lets us face the future with confidence.

# Customs Clearance

We provide a full range of services connected with customs clearance needs:

- Gathering and matching of all necessary documents
- Identification of restrictions imposed according to the legislation of the Russian Federation and Customs Union (the restrictions concerning foreign trade and documents certifying their observance)
- Classification of commodity code selection (customs codes)
- Editing of specifications and other documentation including a grading by customs codes
- Completing of the cargo customs declaration (CCD)
- Completing of the customs value declaration (CVD)
- Completing of customs value updating and customs payments form (KTS)
- Getting the copy of customs declaration and other documents that verify the customs decision accepted
- Participation in the customs inspection of the cargo
- Directing to the functional departments of customs

# Transportation and Forwarding services

We render a wide range of transportation services:

- Multimodal transportation (by road, by sea, by railway, by air)
- Planning and working out the optimal schemes of cargo delivery from the Shipper to the warehouse of the Consignee
- Safe custody of the goods
- Weighing of the goods at consolidated warehouses in Baltic, Poland, the EU
- Forwarding at the Russian ports

TIS Group is our first-level carrier.

The company meets the requirements of ISO 9001:2008.

# Reasons to cooperate with us

LEGA-C is a highly competitive customs broker in the Russian market. Your company will get benefit from cooperation with us as we offer our partners the following:

- We guarantee best rates and provide our customers with low cost solutions (in accordance with the government program "Road Map-2020")
- You get a full range of services rendered by highly skilled specialists
- We provide comprehensive customs support including assistance in complying with customs security and other government requirements
- We immediately inform of regulatory changes that can affect shipments
- Our clients get instant access to the information regarding their imports and exports via Internet

We are committed to the individual approach and interested in establishing long-lasting mutually beneficial cooperation.

# Prospects

LEGA-C is an active participant on the customs and logistics market. We are looking for the partners in different economic organizations and business societies.

We participate in the groups of same specialization in the Russian Union of Industrialists and Entrepreneurs and in the Chamber of Trade and Commerce of the Russian Federation.

We are interested in cooperation with foreign companies. Therefore we have applied for membership to the Chamber of Commerce of Russia and Germany (we expect attendance at the meeting of the Chamber on the 20th of June 2014) and to the Joint Chamber of Commerce of Switzerland-Russia CIS (JCC).

# Our basic terminals

A modern customs & logistics terminal is established by the Alfa Trans Group in the very heart of the complex. It includes both general and excise customs stations considerably simplifying goods, raw materials & component parts' logistics for foreign trade operators.

In 2011 Stabna Customs Station (Smolensk Customs unit) won The Best Customs Authority Team Contest of the Russian Federation in the category "The best inland customs station".
