

**METALLIMPRESS**

**DESIGN  
CONSTRUCTION**

# About Company

1992 Establishment of the Research and Production Company Metallimpres which core operation was design

1998 Foundation of its own facilities for steel structure production

2001 First significant contract for the General Design and reconstruction of the object with the total area over 15,000 m<sup>2</sup>; development of order portfolio

1996 Launch of construction and installation direction

1999 Active phase of the company structuring, formation of the Design Team departments: Steel Structures, Detailed Design, Foundation Engineering, Reinforced Concrete Structures, Architectural Solutions, General Plan; the establishment of construction and finishing branch in the construction and production department

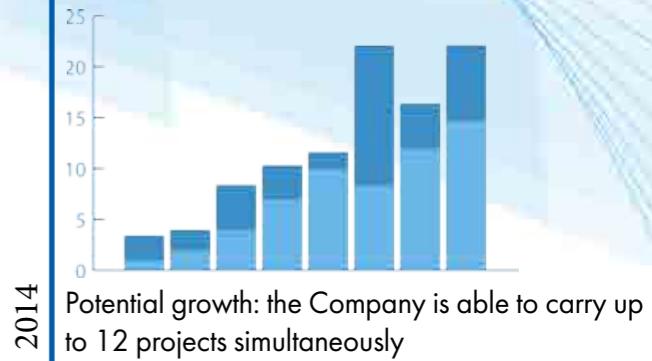

2004 Active promotion of «turn-key» construction

2006 Simultaneous construction of several large objects acting as the General Contractor

2007 Entry from the regional market to the all-Russian market; taking the repeated orders from the customers; increase in production capacity

2008 - 2010 Successful work amid the global financial crisis; the start of effective cooperation with foreign customers

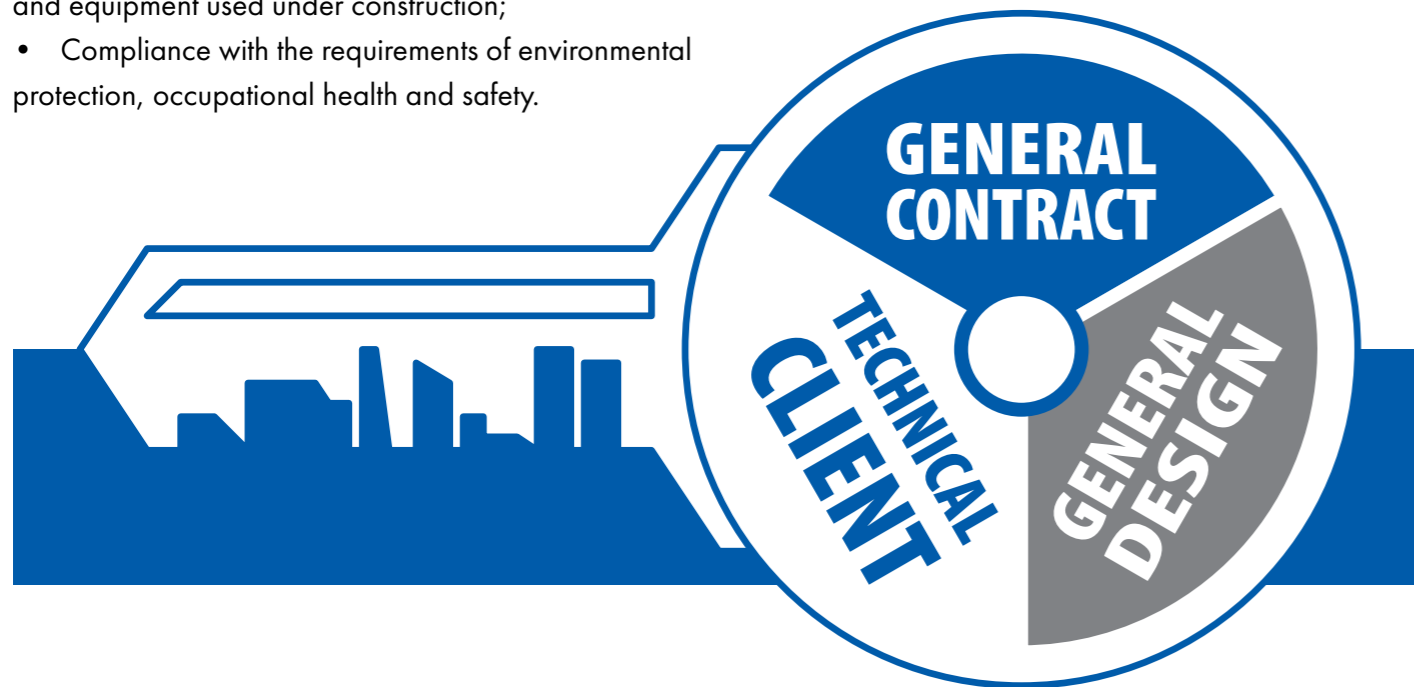

# Company's Profile

The basic model of collaboration with customers is turn-key construction which includes:

**GENERAL CONTRACT**  
**GENERAL DESIGN**  
**TECHNICAL CLIENT**

Metallimpress is a **General Contractor** with comprehensive approach to project implementation. While performing functions of the General Contractor the Company puts emphasis on:

- Qualified construction management;
- Quality of technologies, materials and equipment used under construction;
- Compliance with the requirements of environmental protection, occupational health and safety.

**Client service** of LLC NPF Metallimpress according to the Customer wish can collect and process the initial permit data as well as set the completed construction object into operation.

Metallimpress **Design Team** consists of 197 graduates capable of performing the design works of any complexity. The specialists of all required design sections form the Design Team.

# Services

## Industrial facilities:

- Automobile plants;
- Food production;
- Heavy industry plants;
- Light industry plants;
- Chemical production;
- Pharmaceutical production;
- Plants of light and heavy engineering.

## Logistics facilities:

- Distribution centers;
- Logistic centers;
- Warehouses.

## Civil engineering facilities:

- Shopping centers;
- Business centers;
- Hotels.

# General Contract

Within the General Contract services LLC NPF Metallimpres takes over the management of all the processes at the construction site, as well as full responsibility for managing the process of construction.

Within the General Contract services our Company performs the following activities:

- Organization of construction site and works on it in accordance with the design and regulatory documentation;
- Carrying out construction and finishing works;
- Bid selection of subcontractors to perform certain types of work and conclusion of Subcontracting Agreements;
- Coordination and supervision of subcontractors;
- Construction budget management within the limits of the approved estimate;
- Procurement, delivery and storage of the necessary materials;
- Provision the construction site with the power, transport resources, communication required;
- Enforcement of HSE activities on the construction site;
- Coordination of the standard operating procedures and their enforcement on the construction site with the regulatory authorities;
- Security and household services on the construction site.

The 1-st degree Diploma of the regional competition for the best construction site in Lipetsk Region «The Construction Site 2012» in the category «Industrial Construction»

Our accumulated experience allows to:

- make the best use of both our own and partner resources;
- to analyse the potential risks;
- correctly select the suppliers and subcontractors;
- Carefully monitor every stage of the work;
- Exactly follow the established timeframes.

# Design

Metallimpres Design Team consists of 197 graduates capable of performing the design works of any complexity. The specialists of all required design sections form the Design Team.

Company employees regularly attend seminars and courses to upgrade skills.

## List of works:

1. Reference design.
2. General design:
  - 2.1. Development of project stage P:
    - Section 1: Explanatory note.
    - Section 2: Land plot layout diagram.
    - Section 3: Architectural solutions.
    - Section 4: Design and space-planning solutions.
    - Section 5: Information on engineering equipment, engineering networks, and so on.
    - Section 6: Construction method statement.
    - Section 7: Plan for organization of demolition work and dismantling of buildings and structures.
    - Section 8: List of measures for environmental protection.
    - Section 9: List of activities to ensure fire safety.
    - Section 10: Requirements for the safe operation of capital structures.
    - Section 11: List of measures to ensure compliance with the requirements of energy efficiency and requirements on equipment of buildings and structures with metering devices of energy resources used.
    - Section 12: Activities on Civil Defense and Emergencies.
  - 2.2. Development of Detailed Design.
3. Field supervision.

Our Company offers optimal and cost-effective options for design solutions.

# 3D Design

Within today's requirements for the development of design documentation, the LLC NPF Metallimpres Company uses the BIM technology for the 3D design of the facilities. Today in the Company a co-design of such sections as Architectural and Construction Design, HVAC, Water Supply and Sewerage, General Design in a single digital model is conducted. Employees of the company are certified by the world's leaders in the development of the 3D design software and have the Autodesk Certified Professional certificates.

Within the BIM technology, in the Company such development tools as Autodesk Revit and Revit MEP for collaboration work of the departments Architectural and Construction Design and HVAC, systems for project development of General Design and External Water Supply and Wastewater Removal - Autodesk Civil 3D and Infrastructure Design Suite - software package that implements the BIM technology for the design of infrastructure, are used.

For our customers, the 3D design and coordination department can prepare an informational 4D / 5D model that takes into account the features of time and quantity indexes of the facility both during construction and during operation.

## | Our objects

## Agricultural Machinery Plant

Location: Krasnodar region, Krasnodar, Mirniy laneway, 16

Customer: LLC CLAAS

Functions of Metallimpress: Development of detailed design, General Contract, Technical Client

Total area: 45 000 m<sup>2</sup>

## Furniture Factory

Location: Novgorod region, Novgorod district, village Podberezye

Customer: LLC IKEA industry Novgorod

Functions of Metallimpress: General Contract

Total area: 57 325 m<sup>2</sup>

## Mineral Tiles Manufacturing Plant

Location: Republic of Tatarstan, Special Economic Zone (SEZ) Alabuga

Customer: LLC Armstrong Building Products

Functions of Metallimpress: Development of detailed design, General Contract

Total area: 24 440 m<sup>2</sup>

## Transformer Production Plant (1st, 2nd stages)

Location: Voronezh region, Voronezh, Industrial Park Maslovsky

Customer: LLC Siemens Transformers

Functions of Metallimpress: Development of detailed design, General Contract, Technical Client

Total area: 19 000 m<sup>2</sup>

## Shopping and Entertainment Center (2nd stage)

Location:	Republic of Bashkortostan, Sterlitamak
Customer:	LLC Otkrytye Investitsii
Functions of Metallimpress:	Development of detailed design, General Contract
Total area:	58 000 m <sup>2</sup>

## Warehouse Complex for Storage of Finished Products TM Rollton

Location:	Moscow region, Serpukhovskiy district, village Ivanovskoye
Customer:	LLC Mareven Food Central
Functions of Metallimpress:	Development of detailed design, General Contract, Technical Client
Total area:	20 397 m <sup>2</sup>

## Shopping and Entertainment Center (Retail Park №1)

Location:	Moscow region, urban district Zhukovski, right Bank of the Moskva river, plot №1
Customer:	LLC RP Zhukovski (Norman Asset Management)
Functions of Metallimpress:	Development of detailed design, General Contract
Total area:	54 030 m <sup>2</sup>

## Raw Materials Warehouse of the Manufacturing Plant for Childcare Goods and Paper Products

Location:	Moscow region, Stupino, Sitenka St., Plot 15
Customer:	LLC Kimberly-Clark
Functions of Metallimpress:	General Design, General Contract
Total area:	14 000 m <sup>2</sup>

## Gyproc Plasterboard Plant

Location:	Nizhny Novgorod region, Pavlovsky District, Gomzovo village
Customer:	LLC Saint-Gobain Construction Products Rus
Functions of Metallimpres:	General Design, General Contract, Expertise Support
Total area:	26 500 m <sup>2</sup>

## Gyproc Plasterboard Plant

Location:	Republic of Bashkortostan, Karmaskalinsky district
Customer:	LLC Saint-Gobain Construction Products Rus
Functions of Metallimpres:	General Design
Total area:	21 129 m <sup>2</sup>

## Dry Building Mixes Production Plant Weber-Vetonit

Location:	Moscow region, Egorievsk
Customer:	LLC Saint-Gobain Construction Products Rus
Functions of Metallimpres:	General Design
Total area:	3 700 m <sup>2</sup>

## Drilling Rigs Production Plant

Location:	Kostroma region, Volgorechensk
Customer:	LLC NOV Kostroma
Functions of Metallimpres:	General Design, Technical Client
Total area:	33 262 m <sup>2</sup>

## Plant for Production of Fiber Optic Communication Cable

Location:	Voronezh region, Voronezh, Industrial Park Maslovsky
Customer:	CJSC OFS SvyazStroy-1 VOKK
Functions of Metallimpres:	General Design
Total area:	19 356 m <sup>2</sup>

## Energy Technology Center

Location:	Kaluga region, Kaluga, Technology park Rosva
Customer:	LLC GE Rus
Functions of Metallimpress:	Development of detailed design, General Contract
Total area:	4 500 m <sup>2</sup>

## Automotive Fuel Tank Production Plant

Location:	Kaluga region, Kaluga, Industrial Park Grabtsevo
Customer:	LLC YAPP Automotive systems
Functions of Metallimpress:	General Contract
Total area:	6 700 m <sup>2</sup>

## Automotive Components Production Plant

Location:	Kaluga region, Kaluga, Industrial Park Grabtsevo
Customer:	CJSC MAGNA Technoplast
Functions of Metallimpress:	Development of detailed design, General Contract, Technical Client
Total area:	14 500 m <sup>2</sup>

## Potable Water Plant

Location:	Nizhny Novgorod region, Kulebaki district, Savasleyka village
Customer:	LLC Aquanika
Functions of Metallimpress:	General Design, General Contract
Total area:	23 350 m <sup>2</sup>

## Logistic Center Class A (2nd stage)

Location:	Nizhny Novgorod region, Kstovo district, Zhdanovsky village
Customer:	CJSC Alidi Nedvizhinost
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	22 790 m <sup>2</sup>

## Logistic Center Class A (3rd stage)

Location:	Nizhny Novgorod region, Kstovo district, Zhdanovsky village
Customer:	CJSC Alidi Nedvizhinost
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	5 000 m <sup>2</sup>

## Production Line of Roofing Sheet (1st stage)

Location:	Nizhny Novgorod region, Nizhny Novgorod, Okskaya Gavan
Customer:	LLC Onduline Construction Materials
Functions of Metallimpress:	Technical Client
Total area:	12 000 m <sup>2</sup>

## Production Line of Roofing Sheet (2nd stage)

Location:	Nizhny Novgorod region, Nizhny Novgorod, Okskaya Gavan
Customer:	LLC Onduline Construction Materials
Functions of Metallimpress:	General Contract, Technical Client
Total area:	11 800 m <sup>2</sup>

## Workshop of Foil Marking

Location:	Nizhny Novgorod region, Nizhny Novgorod, Okskaya Gavan
Customer:	LLC Onduline Construction Materials
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	1 500 m <sup>2</sup>

## Furnace and Cooling Shop

Location:	Moscow region, Klin district, Spas-zaulok village
Customer:	LLC AGC Flat Glass Klin
Functions of Metallimpress:	Development of detailed design, General Contract
Total area:	20 200 m <sup>2</sup>

## Center of Industrial Processing and Distribution of Glass

Location:	Nizhny Novgorod region, Nizhny Novgorod
Customer:	CJSC RSK
Functions of Metallimpress:	General Design
Total area:	9 500 m <sup>2</sup>

## Triplex Glass Production Shop

Location:	Moscow region, Klin district, Spas-zaulok village
Customer:	LLC AGC Flat Glass Klin
Functions of Metallimpress:	General Contract
Total area:	6 800 m <sup>2</sup>

## Center of Industrial Processing and Distribution of Glass

Location:	Moscow region, Kolomna
Customer:	CJSC RSK
Functions of Metallimpress:	General Design
Total area:	5 000 m <sup>2</sup>

## Trade and Distribution Center

Location:	Nizhny Novgorod, Geroja Popova St.
Customer:	LLC Sladkaya Zhizn
Functions of Metallimpres:	General Design, General Contract
Total area:	15 000 m <sup>2</sup>

## Warehouse Complex

Location:	Nizhny Novgorod region, Dzerzhinsk, Sverdlova avenue
Customer:	LLC Sladkaya Zhizn
Functions of Metallimpres:	General Contract
Total area:	12 000 m <sup>2</sup>

## Logistic Center

Location:	Nizhny Novgorod region, Dzerzhinsk, Sverdlova avenue
Customer:	LLC Sladkaya Zhizn
Functions of Metallimpres:	General Design, General Contract
Total area:	18 000 m <sup>2</sup>

## Warehouse Complex

Location:	Moscow region, Podolsk district, Lagovskyrural settlement
Customer:	CJSC ELMOS
Functions of Metallimpres:	General Design, General Contract
Total area:	3 700 m <sup>2</sup>

## Hypermarket

Location:	Voronezh, Shishkova St.
Customer:	CJSC DORINDA
Functions of Metallimpress:	Development of detailed design, General Contract, Technical Client
Total area:	15 722 m <sup>2</sup>

## Hypermarket

Location:	Nizhny Novgorod, Moscow highway
Customer:	LLC Lenta
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	12 000 m <sup>2</sup>

## Hypermarket

Location:	St. Petersburg, Krasnoselsky district, Leninsky avenue, 92
Customer:	CJSC Dorinda
Functions of Metallimpress:	General Contract, Technical Client
Total area:	3 000 m <sup>2</sup>

## Hypermarket

Location:	Saratov, Ust-Kurdyumsky highway
Customer:	LLC Lenta
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	12 000 m <sup>2</sup>

## Regional Distribution Center

Location: Perm region, Dvurechenskiy rural settlement, Neklyudovo village

Customer: CJSC Tander

Functions of Metallimpress: General Design, General Contract, Technical Client

Total area: 51 000 m<sup>2</sup>

## Regional Distribution Center

Location: Moscow region, Kolomensky district, Parfentevo village

Customer: CJSC Tander

Functions of Metallimpress: General Design, General Contract, Technical Client

Total area: 84 160 m<sup>2</sup>

## Regional Distribution Center

Location: Yaroslavl region, Yaroslavl district, Teleginsky rural district, Koryukovo village

Customer: CJSC Tander

Functions of Metallimpress: General Design, General Contract, Technical Client

Total area: 57 000 m<sup>2</sup>

## Regional Distribution Center

Location: Tula region, Leninsky district, Inshinskoe rural settlement

Customer: CJSC Tander

Functions of Metallimpress: General Design, General Contract, Technical Client

Total area: 87 000 m<sup>2</sup>

## Regional Distribution Center

Location: Nizhny Novgorod region, Dzerzhinsk

Customer: CJSC Tander

Functions of Metallimpress: General Design, General Contract, Technical Client

Total area: 36 000 m<sup>2</sup>

## Hypermarket

Location:	Perm region, Kirovsky district, Svetlogorskaya St.
Customer:	CJSC Tander
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	5 300 m <sup>2</sup>

## Hypermarket

Location:	Saratov Region, Saratov, Chernyshevskogo St.
Customer:	CJSC Tander
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	12 150 m <sup>2</sup>

## Hypermarket

Location:	The Republic of Mari El, Volzhsk, Lenina St.
Customer:	CJSC Tander
Functions of Metallimpress:	General Contract, Technical Client
Total area:	3 732 m <sup>2</sup>

## Hypermarket

Location:	Tula region, Efremov, Tulscoe highway
Customer:	CJSC Tander
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	5 500 m <sup>2</sup>

## Hypermarket

Location:	The Republic of Mari El, Yoshkar-Ola
Customer:	CJSC Tander
Functions of Metallimpress:	General Design, General Contract, Technical Client
Total area:	4 900 m <sup>2</sup>

# Our Advantages

## Financial stability and reliability

Repeatedly have been confirmed by the security and risk assessment services and of our customers, by the independent audit bureaus (KPMG).

## Individual approach to financing conditions of the project

We have a flexible system of interaction with a customer.

## Project optimization

During the pre-design development, our experts offer reasonable optimization options of the design solutions provided by the Customer.

## Successful experience working with the foreign customers

Understanding the specific character of doing business abroad; experience in development projects upon international standards, adapted to the Russian standards. To date, companies from 15 countries are customers of LLC NPF Metallimpress.

## Experience in implementing projects in the different regions of Russian Federation

Intelligent cooperation with the regional authorities in the process of obtaining initial planning permits and preparation of facilities for commissioning. Presently the geography of the Company covers more than 19 regions of the Russian Federation, members of the Central, Volga, North-Western, Southern and Ural Federal Districts.

## Reliable team of professionals

Our experts have considerable experience in the implementation of various projects both in the complexity and value. The Company is able to conduct up to 12 projects at the same time.

## Bank guarantees

Upon request, the Company can provide a bank guarantee from the major domestic and foreign banks.

## Extensive network of partners, suppliers and subcontractors

This is why we can offer our customers the optimal cost and performance time.

## Health, Safety, Environment

The Company has developed its own HSE policy, the special attention is paid to compliance with its requirements. This not only helps to minimize and in some cases completely avoid injuries at construction sites, but also to cooperate with leading companies, for which the maintenance favorable environmental conditions in the world is one of the priorities.

## Integrated approach to the project implementation

Implementation of «turn-key» model.

# Personnel Policy

The basis of the development, growth of the company and its competency is the personnel and its team spirit. We are proud of our team of professionals.

We make high demands to professionalism and competency of our colleagues to perform official duties.

In stability of our business development and in drive to continuous improvement, we are focused on the long-term cooperation with each person coming to our team.

## 15 CUSTOMER SERVICE (TECHNICAL CLIENT)

## 20 EHS DEPARTMENT

# Steel Structure Production

The company has its own steel structure production of the capacity 7,000 tons per year.

In the factory area of 2.7 ha are located:

- 2 production buildings with the area of 4000 m<sup>2</sup>, equipped with three spray cabinets, CNC plasma cutting, steel shot blasting workshop;
- administrative building;
- rolled metal products warehouse for storage of 1,000 tons.

We have all the necessary licenses of the National Agency of control and Welding (NAKS) for equipment and conducting welding works

We constantly take charge of the production process quality. Laboratory, specialized in weld quality control and equipped with ultrasonic flaw detectors, allows us to be confident in our products.

# The Assembly of Low Voltage Switch Gears

In-house production of low voltage switch gears as the following:

- Distribution boards for civil and industrial buildings;
- Control cabinets;
- Main switch boards.

The production conforms to the following standards:

**GOST R 51321.1-2007**  
**GOST R 51778-2001**

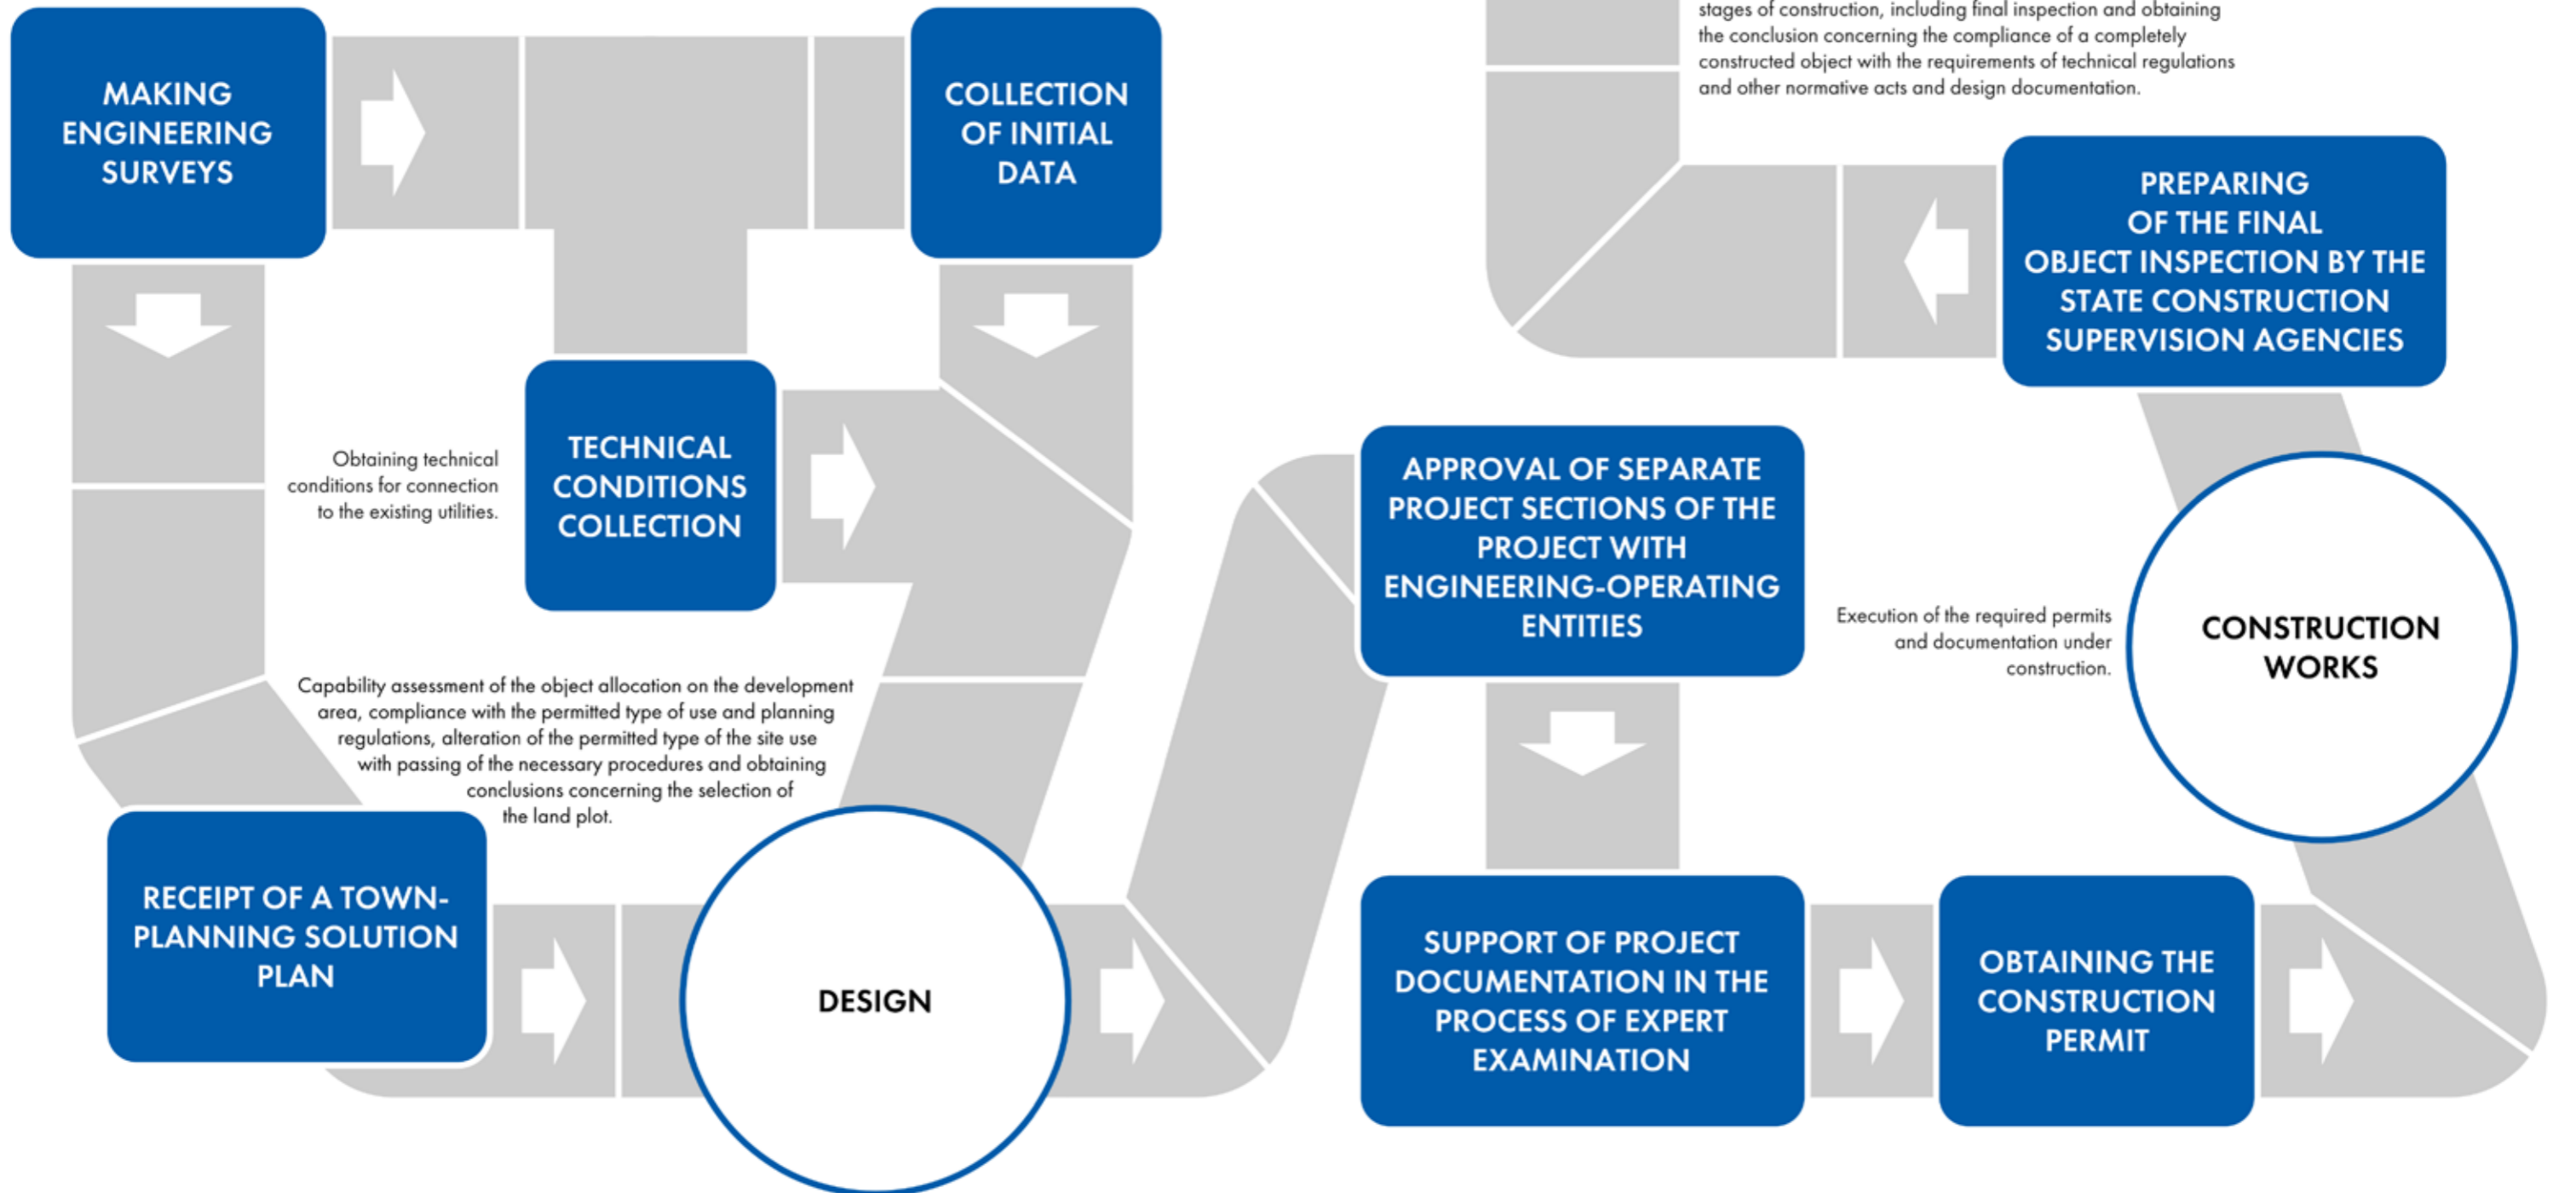

Compliance certificate for the serial production of low voltage switch gears: control cabinets № ROSS RU.AB95.B00058, issued on September, 12, 2012 by «Center of testing, certification and qualification», Nizhny Novgorod, Gagarin Avenue, 1, 603022

# Customer Service (Technical Client)

If necessary Metallimpress can collect and develop the initial permit data as well as set the completed construction object into operation.

# Responsibility

We understand that we must be answerable to the society for social and environmental impact. We have developed and adopted policies describing the mechanisms of labor safety, minimization the environmental impact, efficient use of materials and resources, taking care of employees and their families. Without proper attention to these issues the further sustainable business development is impossible. We aim to gain the trust of our customers, employees and partners and contribute to the development of the modern society.

## The Company's priorities in the field of HSE:

- ensuring safe working conditions;
- preservation of health of the personnel and people;
- injury prevention;
- minimizing environment impacts.

## Basic principles:

### Stable management model:

- responsibility on the part of company management for HSE policy implementation;
- effective systems of downward communication and management structures;
- HSE system interconnection with management decision making.

### Employee involvement in HSE policy implementation:

- engaging workers in promotion and achievement of necessary conditions for HSE;
- effective upward communication,
- high quality education.

### Analysis and Control:

- HSE risk identification and management;
- analysis and (subsequent) expert advice;
- monitoring, reporting and execution control.

## Environmental safety:

The corporate policy in the field of environmental protection includes the following main stages:

- identification of the major sources of negative impacts on the environment during the construction period;
- impact assessment of the identified sources;
- development of an action plan to reduce the impact on the environment;

- inclusion of measures to reduce the negative impact on the environment in the relevant section of the design documentation;
- implementation of environmental safety requirements on construction sites.

## Labour safety:

1. Access to the site is carried out only with a special permit.
2. Every visitor of the site must undergo Tool Box talk.
3. Every worker who comes to the site is required to confirm his or her qualification and pass a test for alcohol and drugs.
4. Instructional video on safety and health regulations are held regularly.
5. For each facility, informational and promotional materials on safety engineering: brochures for visitors and employees, stands and signs, posters are developed and manufactured.

Each employee is provided with all necessary comfort and certified personal protective equipment, minimizing the impact of harmful occupational factors.

"... The management of LLC Armstrong Building Products at all levels has highly estimated the activities of HSE department LLC NPF Metallimpres..."

## Industrial safety:

The Company strictly follows the provisions of the Federal Law No.116-FZ, other federal laws and diverse normative legal acts of the Russian Federation, as well as regulatory and technical documents in the field of the industrial safety at all stages of the project implementation.

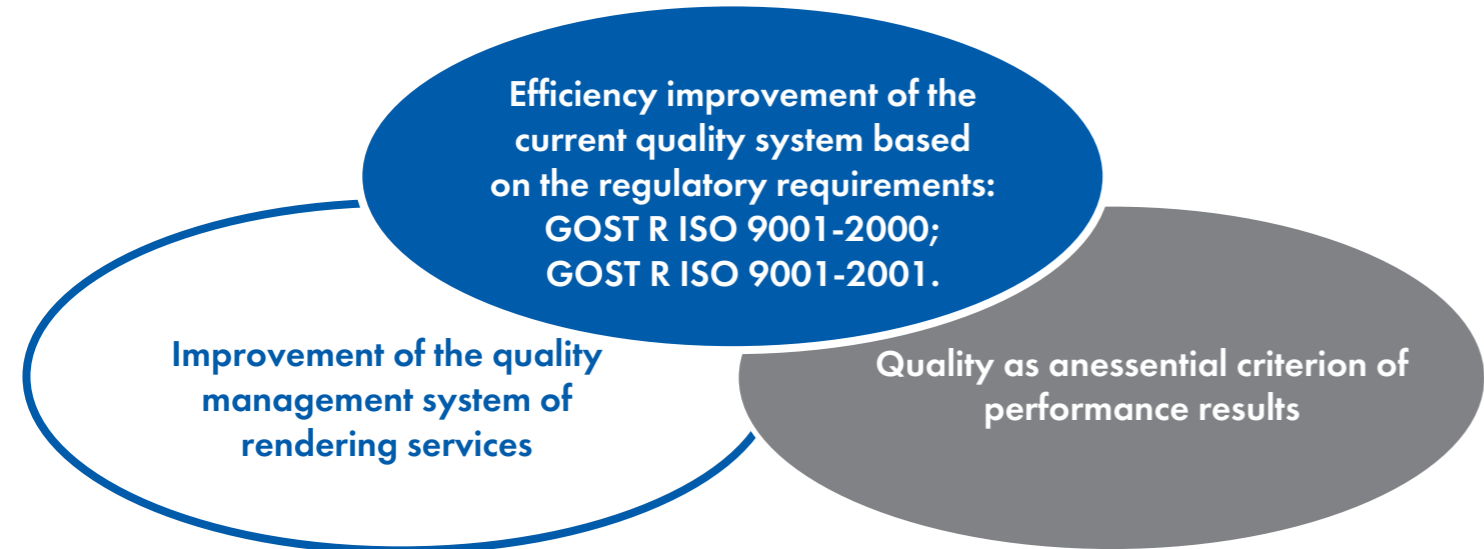

# Quality Control

LLC NPF Metallimpres pays special attention to the quality of work during design, construction and project support at all stages prior to commissioning. The Company guarantees the customers the compliance results of works with the building codes, rules and technical regulations. The responsible approach to the matter of the employees and quality control brought the Company a well-deserved reputation as a highly professional representative of the construction industry.

### Scope of measures for quality assurance:

- Availability of the Quality control department;
- Dynamic response to changes in governmental, international standards, regulatory documents and making appropriate amendments in the internal regulatory documents;
- Carrying out the internal expertise of all projects under development;
- Strict quality control of supplied materials and supporting documents;
- Making high requirements to subcontracting organizations;
- Continuous professional development of the personnel.

### The Company priorities in quality field:

### Organizational chart of quality control:

Work permit to design works № 0117.06-2010-5260012945-P-050, issued on July 31, 2012 by SRO NP "National organization of designers", 105120, Moscow, MalajaDmitrovkaSt., 25, bldg. 1

Work permit to survey works № 0148.03-2011-5260012945-I-022, issued on February 11, 2013 by SRO NP "National organization of prospecting engineers", 125120, Moscow, MalajaDmitrovkaSt., 25, bldg.1

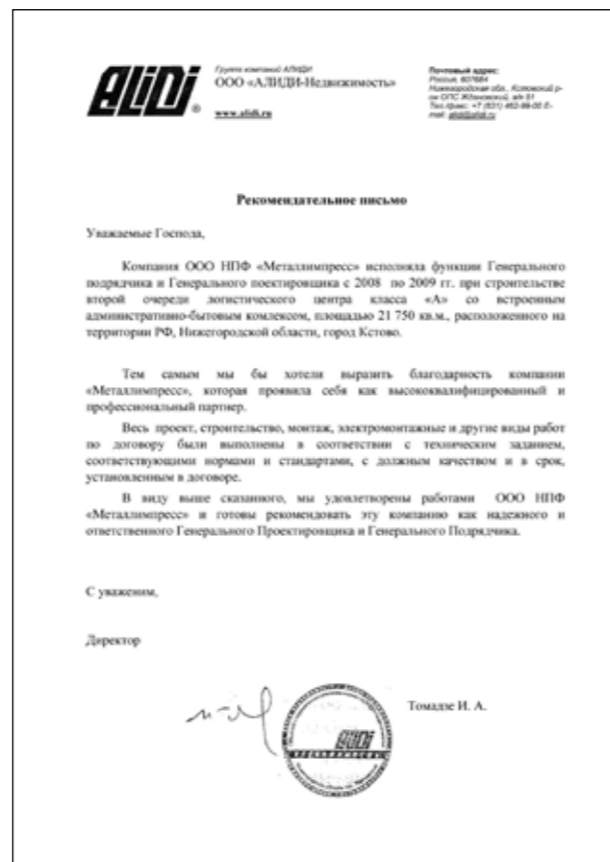

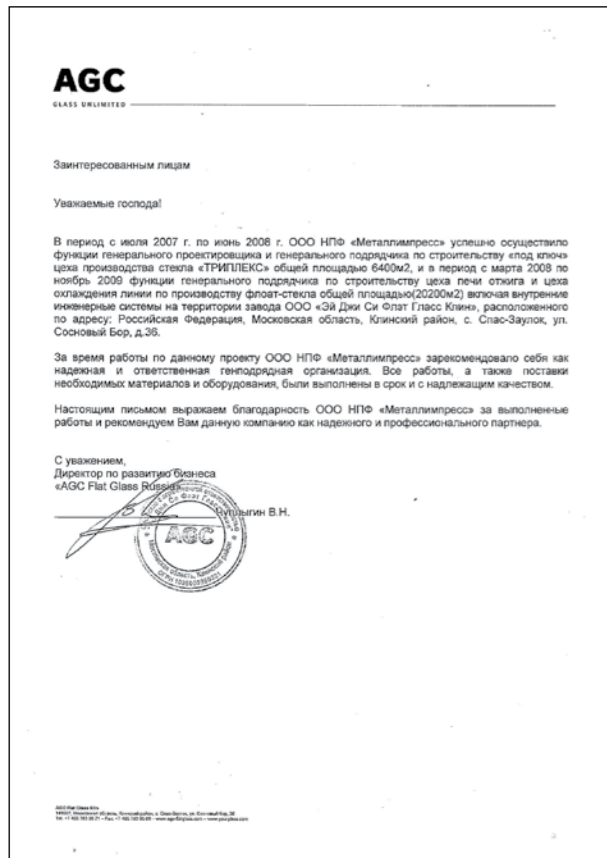

Work permit to construction works № 0301.05-2009-5260012945-C-009, issued on February 11, 2013 by SRO NP "The first national organization of Builders", 125006, Moscow, MalajaDmitrovkaSt., 25, bldg.1

# Customer Feedback

Metallimpres reputation of the qualified builder and reliable partner contributes to successful Company development.

**AGC**  
 "... reliable and responsible general contractor ..."

**ALIDI**  
 "... highly skilled and professional partner ..."

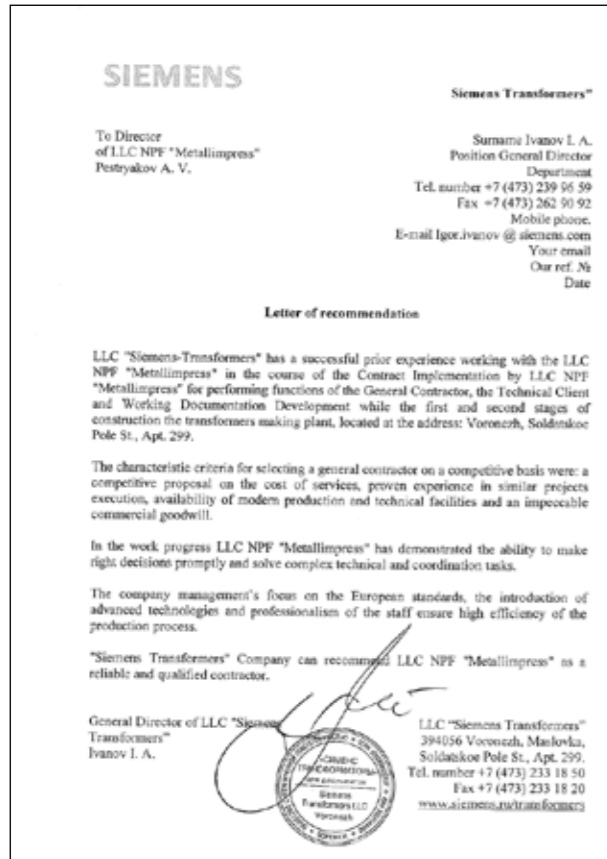

**GE**  
 "We find Metallimpres to be a strong, reliable, professional partner."

**ЛЕНТА**  
 "... professional and responsible approach to our performance..."

We are proud of cooperation with such customers as: Armstrong, Kimberly-Clark, Jotun Paints, Wartsila, Siemens AG, General Electric, Magna International, Saint-Gobain, AGC Flat Glass, Onduline SA, Roshen, Trade network Magnit, Trade network Lenta, Logistics company Alidi, Trade network O'KEY.

"A flexible approach to work, prompt decision-making and the experienced team are the priorities of the company."

"...LLC NPF Metallimpres has demonstrated the ability to solve complex technical and coordination tasks."

"...LLC NPF Metallimpres approved itself as a reliable business partner."

"Real time decision making, a flexible approach to work and coordinated team..."
