and components of civil aircraft made of polymeric and composite
materials

Nuclear-Innovation cluster of Ulyanovsk region

MAIN DIRECTIONS

- » Establishment of the branch of the National research nuclear university «MIFI»
- » Construction of multifunctional fast research reactor MFRR
- » Production of radiopharmaceuticals
- » Federal high-technology Center of medical radiology FMBA of Russia
- » International center of collective use «Radiation - materials – research center»
- » Construction of the prototype of lead-bismuth fast neutron reactor
- » Production of cartridge elements and fuel assembly for fast neutron reactors
- » Construction of polyfunctional radiochemical complex PRC
